About the Office of Sponsored Research Administration (OSRA)

OSRA assists WCM research community faculty to find and pursue viable research opportunities and manages their awards from inception to closeout. OSRA serves as the liaison between Principal Investigators and Sponsors so our researchers can focus their time and talent on science.

Office Location
575 Lexington Avenue, 9th Floor
New York, NY 10022

Mailing Address
1300 York Avenue, Box 89
New York, NY 10065

Submit Early!

 Grants.gov applications must be completed in advance of the application deadline to ensure smooth submission.

WRG-SP offers significant enhancements to current processes providing in system checks and validations for proposal submissions, direct submission to Grants.gov for NIH applications, transparency in the proposal review process and integrations with SAP and other research administrative systems. As we implement and train our community members, we encourage all users to engage early. System to System grant proposals should be completed in advance of deadline dates to accommodate full review and submission in the new environment.

Grants.gov Submissions

WRG-SP provides a direct feed to Grants.gov for all submissions to NIH, DoD and other DHHS agencies. Weill Cornell Medicine will no longer employ Adobe application packages following full WRG-SP implementation. Additionally, the module will perform submission validations and provide a preview of assembled applications all before submission to Grants.gov, providing PIs, Departments and Central Administrators more time to address potential submission errors.

Coming Soon: WRG Sponsored Programs

The Weill Research Gateway (WRG) streamlines the research administration process by replacing multiple legacy systems with one consolidated online portal. The Conflicts of Interest module, implemented in October 2015, marked the launch of one of seven modules that will eventually reside in WRG.

Beginning March 2017, WRG Sponsored Programs (WRG-SP) will be the second module to launch and will be available to WCM’s research community this summer. The module will provide a comprehensive portal for research-related documents including: Grants, Sponsored Research Agreements, Service Agreements, Confidentiality Agreements, Incoming Material Transfer Agreements and Data Use Agreements. WRG-SP will adapt to your submission, prompting only relevant questions based on your document type. The module will then route submissions for departmental and central office approval, providing maximum visibility and transparency throughout the review and submission process.

Invite OSRA to speak at faculty meetings of any size to prepare your department for WRG-SP’s launch. A web recording of our Faculty Town Hall is available at https://goo.gl/RDekTo.

Training Courses & Access

Launch Dates

- **February 27**: Phase 1 Launch – Development of system to system applications in WRG-SP for select faculty
- **March 15**: Training materials and courses available for Phase 2 departments
- **March 5**: First S2S submissions to Grants.gov for Phase 1 faculty
- **April 3**: Phase 2 Launch - Grants and Contract Submission in WRG-SP for Phase 2 departments
- **April 15**: Training materials available for all of WCM
- **June 8**: Full Launch – WRG-SP access for all of WCM
- **July 1**: Grant and Contract submissions accepted WCM-wide through WRG-SP
